6. Equipment Inspection to be carried out in the Championship.

The Equipment Inspection will require a sheltered area to deploy the sails on the inspection table and to roll in the boat for mass determination.

Equipment Inspection will be carried out during the Championship:

- 1) Hull
- 2) Mast, boom and bowsprit.

- 3) Daggerboards and rudders.
- 4) Sails (1 Main, 1 Jib, 1 Gennacker).
- 5) Personal flotation device and personal safety equipment.
- 6) Limitations under rule C.5.2 (GPS regatta assistance is not permitted).

Depending on the time available, the ITOs can add other inspections as necessary.

Fundamental changes in the inspection program will only be implemented after consultation with the Technical Committee Chairman & Vice Chairman
